

**T.CON, an SAP consulting and solution provider,
is co-hosting a workshop with SAP at the International SAP
Conference for Forest Products, Paper and Packaging in Prague**

As an SAP gold partner, T.CON is platinum sponsor of the upcoming International SAP Conference for Forest Products, Paper and Packaging 2018, taking place in Prague, October 16-18, 2018. This conference is the largest SAP event of the paper and packaging industry and the only customer-centric event of its kind globally.

Contributing to this global event for the mill industry in numerous ways, T.CON has been working around the clock to bring the latest SAP advancements to the mill products industry. The cutting-edge solutions T.CON's experts developed using SAP technology will be available at the International SAP Conference. Visitors will learn how to set new standards in terms of productivity and efficiency in production. Tailored for the specific needs of the mill process industry, T.CON will show companies how to reach new heights of Smart Manufacturing.

T.CON is proud to co-host the **"Manufacturing Operational Excellence with SAP® Software"** Workshop with John Harrison, Senior Solution Specialist, IBU Chemicals, from SAP Canada. Participants can find out how SAP solutions and MES CAT software support the manufacturing environment for both discrete and process industries. T.CON's MES CAT was built specifically for the Mill Industry. The workshop will take place October 16, 2018.
